Impact Statement: Blue Grass Community Action Partnership was asked on numerous occasions to meet challenges that were very new to us in several of our programs. In 2008, our Weatherization program funding was only enough to complete approximately 50 homes. With the Federal Stimulus money allocated to this program, we were asked to complete more than 200 homes a year. This involved hiring and training additional crew members and purchasing enough equipment and vehicles to get the job done. Since its start we have met or exceeded the production that has been expected. &nbs(...See Portrait for more information)
